

Discover a brand new level of electric floor heating comfort and control

The DEVireg™ Smart is designed to provide optimum floor heating comfort, exactly when and where you need it. Making wasted heating a thing of the past, and perfect comfort a thing of the future. All with a simple touch.

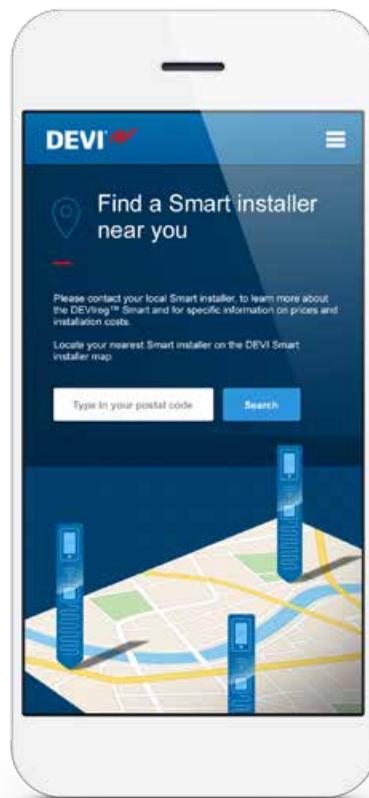

Electric floor heating regulation has never been easier. Or smarter.

Find out for yourself!

Find your local Smart installer on devismart.com

Learn more and discover how easy you can enjoy superior floor heating control and comfort with the new DEVireg™ Smart and DEVismart™ App.

Go to our website for more information about the thermostat and app, find a Smart installer near you or download the demo app right now – and find out yourself how intuitive and smart it is to use.

VBWME102

Your smartphone. Perfect temperature. Smart.

Enjoy superior comfort and control of electric floor heating with the new **DEVireg™ Smart for DEVismart™ App**

Compatible with iOS and Android

The DEVIsmart™ App is compatible with iOS and Android. Download the app for free from Google Play or App Store.

Intuitive app control Smart features – energy saved

This is what you get:

- Stylish design that fits into your regular wall socket
- Open window detection automatically switches off the floor heating
- Smart control button for quick access to frost protection, away, and timer functions
- 7 day / 30 day / lifetime energy consumptions readout in the app for increased energy use awareness
- Control thermostats in unlimited locations (e.g. home, holiday home, office, etc.)
- Can be paired with up to 10 mobile devices via the DEVIsmart™ app
- Can communicate with two mobile devices simultaneously
- Receive notifications / warnings about important system events
- Access dedicated support and troubleshooting directly from the app

Safe and private cloud connection

The DEVIreg™ Smart communicates through a safe cloud system based on the same security that is used in mobile banking applications. No data is stored in the cloud and your personal information is secure at all times.

Adjust your floor heating from your smartphone

Adjust home heating easily and intuitively with the remote control you know the best – via the internet. If the internet goes down, you can still operate locally without internet connection.

Schedule your home heating and reduce energy costs

Save energy by automatically lowering the temperature when you do not need it. Easily set the temperature to fit your rhythm and enjoy superior thermal comfort. Always.

Control all your thermostats in multiple locations

The DEVIsmart™ App lets you stay in control and operate all your thermostats in multiple locations – e.g. your holiday home – from one single point of access.
